**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Wray on 3/6/2008.

The application has been amended as follows: Claim 9 has been modified from "a frame 2 comprising a pair of back apertures 4, a pair of front apertures 10, and a central front aperture, where each of the back apertures 1 are adapted for receiving a variable length of a back spacer 6, each front aperture adapted for receiving a variable length of a front spacer 12, said back spacer connected to a displacer connected to a back wheel, said displacer comprising an aperture adapted for interlocking a leg member 14" to –a frame comprising a pair of back apertures, a pair of front apertures, and a central front aperture, where each of the back apertures are adapted for receiving a variable length of a back spacer, each front aperture adapted for receiving a variable length of a front spacer, said back spacer connected to a displacer connected to a back wheel, said displacer comprising an aperture adapted for interlocking a leg member-- , claim 10 has been modified from "according to claim 1" to –according to claim 9-- , claim 11 has been modified from "according to claim 1" to –according to claim 9-- , claim 12 has been modified from "according to claim 1" to –according to claim 9-- , claim 13 has

been modified from "according to claim 4" to --according to claim 12--, claim 14 has been modified from "according to claim 1" to --according to claim 9--.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The specific limitations of "a pair of back apertures, a pair of front apertures, and a central front aperture, where each of the back apertures are adapted for receiving a variable length of a back spacer, each front aperture adapted for receiving a variable length of a front spacer, said back spacer connected to a displacer connected to a back wheel, said displacer comprising an aperture adapted for interlocking a leg member, said leg member being connected to said front spacer, said leg member being connected to a front wheel, said central front aperture being an aperture adapted to interlock a central leg member being connected to a wheel, and where said means for adjusting the width of the seat comprises two support members slidingly arranged in a seat plate" in the combination as claimed in claim 1 is not anticipated or made obvious by the prior art of record in the examiner's opinion.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
